MANIPULATIVE SET

10 manipulatives to develop specific skills

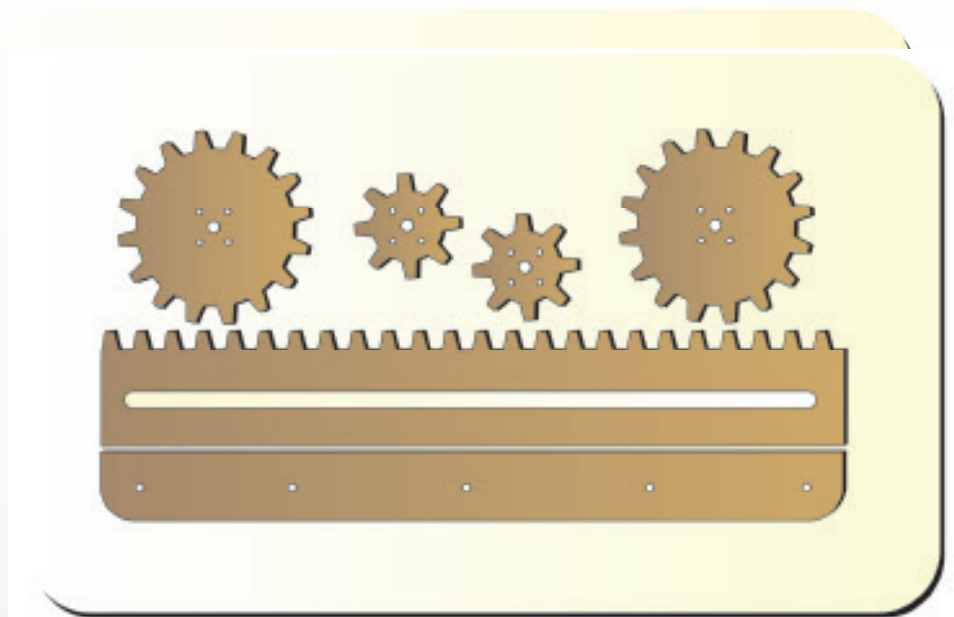

The goal of the Manipulatives Set is to demonstrate in a friendly and interactive environment activities that encourage students to explore subjects and themes with curiosity and a sense of wonder and discovery. The manipulatives are provided in two different modalities:

- 1- As templates with step-by-step directions for teachers to create the manipulatives themselves, using available materials.
- 2- As finished objects, tools or assemblies with a user's guide for teachers to use immediately out-of-the-box.
- 3- The Manipulative Sets are selected or designed by classroom teachers. They can be used in a laboratory environment or in libraries and be accessible to teachers and students.

Portable Library for Haiti

The Portable Library, redesigned to address the requests of customers, comprises a box and 100 books. The compact and durable box measures 12" tall, 14" wide and 7.25" deep, and fits in the overhead compartment of airplanes. It is also lower in cost with more titles to choose from. It is the ideal format to send books to remote locations, where classrooms and formal libraries are scarce or unavailable.

The Portable Library is available for elementary and high-school levels. Each Portable Library includes reading materials (literature, science, math, language arts, reference), manipulatives and music CDs.

For each elementary grade, the Portable Library has: 100 books, including charts and CDs and costs \$750.00. For high-school grades, the library contains 100 books including charts and CDs and costs \$ 850.00

If needed, we can mix grades. For example if you want a Portable Library with one set of books for grades 1 to 3, we will still provide 100 books, but for those grades.

Solid and slim, legal-size file box secures your books for transport from classroom to classroom. Internal rails hold hanging file folders for lesson plans and other documents. Double combination locks provide convenient security. Steel corners and aluminum rails offer strength, and rubber feet prevent surface scuffing. Chrome label holder on the front is the perfect size for a ID number, school name, donor's name and other relevant information.

Books can also be ordered separately.

The Portable Library was formally launched at Brown University during the 2010 Haitian Studies Association conference.
